AUTEN PEONIES

FAMOUS FOR COLOR

EDWARD AUTEN, JR.

Princeville, Illinois

*Auten Peonies Are Different*

Our nine acres of Peonies are growing in fertile "corn belt" soil. The fields are a blaze of glory at blooming time, and visitors are always welcome. We send liberal 3 to 5 eye divisions, properly cut. This is the best size to plant, even better than a full sized clump. Roots are dug to order and shipped to you fresh and full of vigor.

FREE PEONY

If your order includes three Peonies listing at \$1.25 or more each, we will include free of charge, one Peony of our own selection.

YOUR EARLY ORDER will be appreciated. We can give service at less labor cost on early orders, and early planting, though not imperative, is nevertheless highly advantageous.

MINIMUM ORDER, \$2.00 plus 35c postage and packing. No C.O.D. shipments.

TERMS—Cash with order. Prices include delivery in the U. S. east of the Rockies on orders of \$3.00 or more. Under \$3.00 add 35c for postage and packing. Pacific Coast orders under \$10.00 sent express collect, or add 6% extra for prepaid postage.

Canadian orders, add 25c for first root, 7c for each additional root. Parcels post shipment simpler than express. Send import permit and remit in U. S. exchange.

Any complaint as to condition of roots must be made immediately upon receipt of package. We make no warranty as to growth as we do not control conditions nor care in our customers' gardens.

This price list cancels all previous quotations, and is not in effect after Jan. 1, 1951.

SHIPMENT — Fall only, beginning Sept. 1st, until ground freezes. We do not recommend spring planting of Peonies.

JAPANESE TYPE PEONIES

A very charming type of bloom in which the pollen bearing stamens of the single type (the wild Peony is single) have changed to narrow center petals (also called petaloids). These are often yellow, or edged with yellow, or of a color contrasting with the outer petals. (In a double flower, the center stamens and seed pods have changed to full sized petals)

WHITE SINGLE

EXTRA EARLY VARIETIES

(See also the *Auten Hybrids* on another page) These are different from the common (*Albiflora* or *Chinensis*) species. They cover a period of about 16 days before the common varieties start. Every garden should contain some of these early bloomers.

Anomola. (*Smouthii*). A purplish red single. The "cut leaved" Peony. Makes a plant the size of the regular kinds with leaves gracefully cut.... 1.00

Golden Glow. A hybrid. Very large, tall, orange red single. A magnificent Peony, much in demand and seldom offered for sale. Stock limited..... 10.00

Legionaire. A hybrid. Medium sized single, very dark red, better color than Jewell. Used for early cutting 2.00

Officinalis Red Jap. Typical Japanese bloom, color and type of plant same as *Officinalis Rubra*, but it blooms about four days earlier than the latter. Good substance for cutting..... 1.00

Single Tenuifolia Hybrida. "Fern leaf." This corresponds to the description in the Peony manual. Rich dark red single, very early..... 3.00

Single Tenuifolia. The true stoloniferous variety, early single red. A fragile but beautiful plant. The "fern leaf Peony"..... 3.00

THE AUTEN ORIGINATIONS

The 230 *Auten* named varieties are the result of 34 years of careful breeding and selection from many thousands of new seedlings, blooming at about five years of age. 2,600 of the most promising were given advanced trial for from three to nine years more. Those finally named include many of the world's finest kinds. Among them are unfading reds in all types, singles and Japs unsurpassed, rose fragrant doubles, sure blooming late doubles for the warmer parts of the Peony belt, and glorious new Hybrids. Visitors to our fields at once recognize the truth of our slogan "*Auten Peonies Are Different.*"

FROM TENNESSEE. Received the Peony roots all O.K.

FROM NEW JERSEY. It seems it will be close to impossible to beat Chocolate Soldier here. Your Moon of Nippon is really hot when well turned. It has more oomph than Isani Gidui, and of course a real plant and stem.

FROM WASHINGTON. Our garden visitors are thrilled with your red singles. In fact the singles and Japs are most outstanding. Our Dancing Nymph and Puritan Maid were just gorgeous this year.

FROM ILLINOIS. I opened it (the box) and found a grand peony root, "a choice root", the best root of a peony that I ever received.

FROM MARYLAND. As you see I am ordering another peony from you because I still think you grow the finest.

FROM ILLINOIS. It (Veritas) is a very remarkable flower.

FROM VIRGINIA. Your Sky Pilot and Pink Monarch with Gay Paree attracted as much attention (New York Show) as any there except the Hybrids.

WHITE JAPS. Auten Originations.

Undoubtedly the finest white Jap that ever came from Japan is the variety Isani-Gidui. It has white guard petals of wonderful form and substance, and a center of yellow petaloids. But the stem is not the best and the plant also lacks vigor. The Auten white Japs, most of them seedlings of Isani Gidui, are the same type of bloom, some are larger, most of them have deeper yellow centers than Isani Gidui, and all are on vigorous plants with good stems. You need look no further for top quality white Japs.

Christine. Tall, fairly early, large bloom, very vigorous plant. Highest quality.....	7.00
Cordova. Very large white Jap with light yellow center. Fine plant. Extra fine.....	6.00
Fairbanks. Guards open palest flesh, fade, white. The latest of this series. Very tall, the most vigorous, first class in every way.....	5.00
Moon of Nippon (9.26) (R. W. Auten). Combining the high quality bloom of Isani Gidui and the fine stiff stem of Marie Lemoine, its parents, this white Jap ranks with the very best. Beautiful pure yellow center. Has won many awards..	8.00
Nome. Probably the earliest. Tall, stiff stems, fine..	6.00
Roberta. Very large, and tall, a refined bloom.....	2.00
Sitka. Paper white guards, medium to large bloom, tall. Nice center.....	6.00

No. 2385. Rich yellow center. Medium height to tall.

OUR PRICE POLICY

Our prices for Auten Peonies are low, for developing new kinds and increasing stock is a very slow and expensive process. In comparison with the prices asked for new roses, iris, dahlias and gladiolus, all of which increase very rapidly, our Peony prices are absurdly low.

We reduce our prices as fast as we can without depleting our stocks, and this year have made many reductions. Also, we have been obliged to raise the prices of a few kinds. Please judge quality by the descriptions in this list, and not by price alone. Many of our finest kinds are now priced at \$1.00 to \$2.50. Any kind priced at \$5.00 or more is not only very fine but still in limited supply to meet an increasing demand as it becomes well known.

FROM MISSOURI. *Enclosed is another small order. The more peony varieties I obtain and see bloom, the longer my want list seems to grow. Nippon Beauty, as always, Creve Coeur and The Baron gave some lovely blossoms.*

FROM OHIO. *Your notice of shipment received. I can scarcely wait to see them bloom. (If they average near half as fine as the Mary Auten and Plymouth I have I will be delighted.)*

OFFICIALS HYBRIDS Auten Originations

This new race of early bloomers is of surpassing beauty, giving entirely new shades, and reds more brilliant than any regular red variety. They start blooming about ten days before the common peonies, and the latest of them bloom with the first of the common kinds. They should be in every garden. They are in great demand, and stocks are still small. Several kinds have been withdrawn in order to build up adequate reserves.

N. B. Strong divisions of all hybrids will be sent, but because of their peculiar shape, some may have only one or two eyes.

Avelyn. Very early, magnificent clear dark red bomb, loose petalled and opening easily. Sets an entirely new standard of quality in Hybrid doubles.	35.00
Black Gold. An officinalis hybrid. Probably the darkest red of my hybrids. Very glossy, with a very few yellow markings. Semi-double. Bloom and plant not large.	8.00
Bright Eyes. A snappy red double with yellow Jappy markings, rich and brilliant. Not large, but very distinctive	6.00
China Boy. A brilliant red single, almost scarlet, on a dwarf plant. Two rows of petals, nicely rounded, making a trim bloom on a shapely plant. Very distinct and fine.	\$10.00
Chocolate Soldier. Darkest "black" red, variable type, from Jappy bomb with some yellow markings, to full double. Color is unusually rich and free from purple suggestion. One of the latest hybrids	7.00
Dakota. A brilliant medium red single, with a definite scarlet orange tone. Prominent yellow center as both stamens and filaments are yellow. Trim petals, fine plant.	6.00
Dandy Dan. An officinalis hybrid. A very striking large red semi-double, with some stamens in center. Tall stiff stem, a rugged plant and bloom	10.00
Good News. An officinalis hybrid. Early, very brilliant deep red showing orange, with deep yellow center	6.00
Janet. Very large, full double bright cerise red, late. Tall stems. Named at insistence of many who saw it in the field. OK if you like cerise.	2.00
John Harvard. A magnificent Peony. Extra fine very dark red single two or three rows of petals, with yellow stamens. Color clear and does not fade. Fine plant	5.00

- Smoky Joe.** (No. 2233) An enormous black red semi-double, on tall heavy stems. The blooms are loose petalled and some are too ragged. The good ones are superb, and I have had most enthusiastic reports from two growers in Minnesota. Best for cool climate. Stock very limited 10.00

PLANTING DIRECTIONS

IMPORTANT—Open your package of roots immediately when they arrive. Plant as soon as possible but if you have to wait a few days, either keep moist in open box in cool cellar, or better yet, bury in garden.

Plant Peonies in good, well drained soil, in full sun if possible, and away from trees, buildings, etc. Do not plant where a peony has been before, unless all old soil is taken out and replaced with fresh. Plant 3 to 4 feet apart; set so that the eyes point upward and are 2 to 3 inches below the top of ground (very important). Give each root 2 quarts of water when planted, and then make a 6 inch mound of dirt above ground level to prevent heaving, scrape mound away late next spring.

In northern states, a mulch the first winter is advisable.

LILIES—UMBELLATUM ERECTUM

Orange red with dark dots, shaped like a wine goblet. One of earliest lilies to bloom, early June. Tall and very strong grower, in partial shade or full sun. Plant 10 inches deep after Sept. 20th. Can be easily forced in house in winter. 2 for 50c, 6 for \$1.25, 12 for \$2.00.

FROM UTAH. I particularly like its clear shade of medium red (Topeka) which is quite different from my other early Peonies. It seems that most people prefer the large fully double Peonies, but the big thrill to me this year were *Arcturus*, which was the first of the *Albifloras* to bloom, and the *Japs*, a lovely trio being your *Nippon Beauty*, *Nippon Gold* and *Nippon Brilliant*.

FROM NEW JERSEY. I am pleased to recommend your stuff at every opportunity.

FROM ALABAMA. *Big Ben* leads all reds for me. All the white doubles from you were good. *White Delight* was the best of these. I believe that *Nippon Chief* was the most prolific and had the largest blooms of any of my red *Japs*, but all were good. The whites (*Japs*) were good also.

FROM ILLINOIS. I received my Peony roots and have them all planted, and know they will grow, for they are such fine roots.

FROM ILLINOIS. Your Peony fields this year were really breath taking.

FROM TEXAS. *Tempest* is among the best of all reds, it is extra fine. *Big Ben*, very prolific, beautiful plant. This is a very vigorous plant, dark scarlet in color, dark green leaves, immense and spectacular, by far my best red. *Japs* do well in Texas. Especially fine is Auten's red *Jap Fire Chief*. *Nippon Parade* is another beauty. *Nippon Princess* and *Gay Paree*, which have an odd shade of deep cerise, which to me is beautiful. They are very unusual.
